Disclaimer:

How it works (quick steps)

1. **Send us your instructions**
   Upload the rubric, prompts, resources, and any notes from your instructor.

2. **Tell us your deadline + requirements**
   Word count, formatting (APA/MLA), number of references, and any special topics to cover.

3. **We match you with the right writer**
   We assign someone who fits your course level and subject area.

4. **We write the assignment from scratch**
   It's built around your prompt, rubric, and any required readings.

5. **You review the draft**
   If you want changes, we revise based on your feedback (so it matches your voice and instructor expectations).

6. **Final delivery + originality check**
   We send the final version and the originality proof.

What you get

- **A full assignment that's ready to submit** (formatted and complete)

- **A Turnitin report** to verify **AI-free and plagiarism-free originality**

NURS 6003 Week 1 | Part 1: My Academic and Professional Network - Full Sample

I have identified and secured the participation of the following academic (at least two) and professional (at least two) individuals and/or teams to form the basis of my network. This network will help me to clarify my vision for success and will help guide me now and in the future.

Directions: Complete the information below for each member of your network. For more than four entries repeat the items below with details of your additional network member(s) in the 'ADDITIONAL NETWORK MEMBERS' section.

NETWORK MEMBER 1

Name: Dr. Amanda Lewis
Title: Faculty Advisor, MSN Program
Organization: Walden University
Academic or Professional: Academic

Why I selected this individual and/or team and how they will support my success in the MSN program and as a practicing nurse:

I chose Dr. Lewis because having consistent academic guidance is important to me as I begin the MSN program. Knowing that I have a faculty advisor I can reach out to for clarification, direction, and support gives me confidence as I navigate graduate-level expectations. Her guidance will help me stay organized, understand program requirements, and connect my coursework to my long-term goals as a practicing nurse.

NETWORK MEMBER 2

Name: Michael J. Ochieng
Title: Family Nurse Practitioner
Organization: Mayo Clinic Health System
Academic or Professional: Professional

Why I selected this individual and/or team and how they will support my success in the MSN program and as a practicing nurse:

I decided to include Mr. Ochieng in my professional network after observing how he balances clinical expertise with ongoing professional development. His experience as a family nurse practitioner has given me a realistic view of the responsibilities and expectations of advanced practice nursing. He has been supportive in sharing advice about managing academic demands while maintaining high standards of patient care, which will be valuable as I progress through the MSN program.

NETWORK MEMBER 3

Name: Rachel T. Monroe
Title: Acute Care Nurse Practitioner

Organization: Trinity Health Medical Group
Academic or Professional: Professional

Why I selected this individual and/or team and how they will support my success in the MSN program and as a practicing nurse:

I selected Ms. Monroe based on her experience working in acute care settings and her strong clinical judgment. Watching how she handles complex patient situations and collaborates with interdisciplinary teams has helped me better understand the role of an advanced practice nurse. She has been open to discussing challenges she has faced in practice, which helps me set realistic expectations and apply academic learning to real-world clinical situations.

NETWORK MEMBER 4

Name: Dr. Helen Morrison
Title: Associate Dean, School of Nursing
Organization: Northern Lakes University
Academic or Professional: Academic

Why I selected this individual and/or team and how they will support my success in the MSN program and as a practicing nurse:

I included Dr. Morrison in my academic network because of her leadership experience in nursing education and her understanding of professional growth in the field. Learning from someone who has guided nurses through both academic and career advancement has helped me think more intentionally about my long-term goals. Her perspective and support will help me remain focused on academic success while preparing for future leadership roles in nursing.
